

Selfie video: Use your iPad to create a video of you introducing yourself to me. (Your video will only be seen by me.) Please follow these guidelines:

1. Your video should be **between 45 and 60 seconds**. If yours is too long or too short, please try again until it is the right length.
2. Film yourself in a **location** that is meaningful to you. That could be somewhere in your house, outside your house, in your neighborhood, or someplace else that matters to you.
3. Make sure the **lighting** is good and the **sound** is clear.
4. Start with your **first and last name**.
5. Your video will be better if you **plan first**. Writing down what you want to say will help, but please don't read from the paper.

Here are some suggestions of what you could include:

- Remember: **START** with your **first and last name!**
- Location: why did you choose to film there?
- Your family - siblings? Ages? Pets?
- Favorite books or authors or genres - you know I love reading, so help me know what kinds of books you'll want to read this year.
- Your interests/hobbies outside of school - do you play a sport? Do you (and/or your family) participate in clubs or organizations? Do you play an instrument? Build or create?
- Favorite places - where are you at your best or feel the most at peace?
- What do you hope our English class will be like? What do you want from me? How can I make English class rewarding for you this year?
- Anything else you think I should know about you?

When you are finished with your video:

- Watch it to make sure the lighting and sound are good.
- Make sure it is between 45-60 seconds.
- Touch share-arrow > add to Google Drive > turn in on Classroom:
